Description

The description for media entities is missing:

http://portal.cybertaxonomy.org/salvador/cdm_dataportal/media/bc3c1c4f-9370-40fc-a5a8-778e6a331ed9

This seems to be caused by the MediaPortalController missing to initialize the media.description property.

Furthermore are the confusing differences between responses of the general and portal media services.
