Category:	Import	**Estimated time:**	0:00 hour
Target version:	Phycobank data showcase		

Description

during the import all name which did not have an explicitly stated status, did receive the status 'nom. valid'. This turned out to be not correct in all cases. So we need to remove all the 'nom. val' status from names

this can be done using a sql script.

```
 delete t_n from TaxonNameBase_NomenclaturalStatus t_n where t_n.status_id in (select n.id from NomenclaturalStatus n where n.type_id = 860);
 delete n from NomenclaturalStatus n where n.type_id = 860;
```

History

#1 - 12/13/2016 05:14 PM - Andreas Kohlbecker

- Description updated

#2 - 12/13/2016 05:23 PM - Andreas Kohlbecker

- Status changed from New to Resolved

- Assignee changed from Andreas Kohlbecker to Wolf-Henning Kusber

- % Done changed from 0 to 80

sql script applied to production and test database.

@Henning: please review

#3 - 03/17/2017 10:25 AM - Wolf-Henning Kusber

- Status changed from Resolved to Closed

- % Done changed from 80 to 100

some records checked in test portal: all are okay. Set "Done" to 100% and close ticket (2017-03-17)
