fix #6299: add openSession in getSession when there is no current session

History

#1 - 01/03/2017 09:37 AM - Katja Luther

I could reproduce the exception, following message is shown:

Could not obtain transaction-synchronized Session for current thread

The original error message on cdmlib side was:

```

- Target version changed from Unassigned CDM tickets to Release 4.5

This problem could be solved by catching the hibernate exception when there is no currentSession and create a new session.
