#7 - 11/12/2019 06:36 PM - Andreas Müller

- Priority changed from New to Priority11

- Target version changed from Unassigned CDM tickets to Release 5.12

Andreas (and maybe Norbert, Eckhard). Can you please decide if this is still needed at all. I guess if a TaxEditor UI is available ([#8677](#), [#6352](#)) for running the aggregation there is no need to implement this in the dataportal anymore. The TaxEditor is the preferred place for data manipulation.

Norbert wrote:

I agree that TaxEditor is the preferred place to run aggregation, see no need for an implementation in the Portal,
Norbert

#9 - 11/13/2019 08:37 AM - Andreas Kohlbecker

- Status changed from New to Rejected

- Target version deleted (Release 5.12)

I also agree
