

EDIT - bug #6415

Create test suite for availability testing of external services

02/13/2017 10:29 AM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	platform	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
Availability of external services needs to be tested outside cdmlib standard maven testing to avoid failing tests in cdmlib due to unavailable external services.			
However, we need to guarantee that these services are generally still there and therefore need tests to inform us if they are not.			
How to implement this is still up to discussion.
