

EDIT - bug #6427

Improve Matching for Reference.title and abbrevTitle

02/17/2017 10:16 AM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdm	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets	Found in Version:	Release 4.5
Severity:	normal		
Description			
Currently we have EQUAL_REQUIRED on title which is too strict as also an abbrevTitle is sufficient.			
We need a rule that requires 1 out of several parameters (or does this exist already somewhere?).			
For nomenclatural references this rule is too strict anyway as there are many articles and booksections without title #6417

This is not so urgent anymore since we have the MatchStrategyFactory and especially the ParsedXxxMatchers. However, for correct deduplication of any references something like 1_OF_X_Required will be needed.
