

EDIT - bug #6432

Apply CSS only to non-admin pages

02/24/2017 03:49 PM - Saskia Gennrich

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 4.6	Found in Version:	
Severity:	blocker		
Description			
Some of the rules in cdm_dataportal.css are too wide. Especially HTML Description list tags (dl, dd, dt) mess with my admin theme (adminimal).			
Proposed solution: Only add css to non-admin pages			
I also use this issue to figure out how you would like me to submit changes.

Revision 8fc089e1 - 03/01/2017 12:49 PM - Saskia Gennrich

ref #6432 apply css only to non-admin pages

Revision 63f6d312 - 03/08/2017 01:27 PM - Saskia Gennrich

ref #6432 more fine tuned inclusion of css.

CSS rules for admin/config/cdm_dataportal/settings are included on all settings rule.

CSS rules for the debug block are attached to the debug block.

History

#1 - 02/24/2017 03:54 PM - Saskia Gennrich

- File 6432_css_only_admin.patch added

So here's a patchfile you can apply to your local repository with

```
git apply -v 6432_css_only_admin.patch
```

#2 - 02/24/2017 04:07 PM - Saskia Gennrich

I also pushed my branch https://dev.e-taxonomy.eu/gitweb/cdm-dataportal.git/shortlog/refs/heads/6432_css_only_admin

#3 - 02/28/2017 10:44 AM - Saskia Gennrich

- Status changed from New to Feedback

#4 - 03/01/2017 11:54 AM - Andreas Müller

- Tags set to faunaEuropaea

#5 - 03/01/2017 12:53 PM - Andreas Kohlbecker

- Status changed from Feedback to Resolved

- Assignee changed from Saskia Gennrich to Andreas Kohlbecker

- Target version changed from Unassigned CDM tickets to Release 4.6

The fix for this issue is now in the develop branch, so that it will be deployed to the test server. I now can test and review this commit there.

- Priority changed from New to Highest
- Severity changed from minor to blocker

Hi Saskia,

your commit causes a problem in the admin settings area of portals using an other theme that the "CDM DataPortal base theme ". For example if you switch to the cichorieae theme the CDM-Debug-block table will overlay all settings pages:

The screenshot shows a web browser window with the URL `http://test.e-taxonomy.eu/dataportal/preview/cichorieae/admin/config/cdm_dataportal/settings`. The page displays a 'CDM Debug' table that is overlaid on top of the 'Settings' page. The table has the following columns: URI, Time, Fetching [s], Parsing [s], Size [kb], Status, and Links. The table contains several rows of data, including URIs like `termVocabulary/ca04609b-1ba0-4d31-9c2e-aa8eb2f4e62d/terms?orderBy=BY_ORDER_INDEX_ASC&pageNumber=0&pageSize=500` and `portal/classification?pageNumber=0&pageSize=500`. The table also shows performance metrics for each request. The 'Settings' page is visible in the background, showing tabs for 'General', 'Geo & Map', 'Layout', and 'Cache'.

Ich konnte das leider nicht reproduzieren.

Habe das CSS ein bisschen refactored. CSS für die Settings Tabelle wird auf allen admin pages geladen und das CSS für den debug block immer mit dem Block zusammen.

Hast du das auch mit dem 'garland_cichorieae'-Theme getestet?

#9 - 03/07/2017 04:22 PM - Saskia Gennrich

Ja, aber das Problem ist ja nicht direkt mit dem Theme, sondern wo benötigt das `cdm_dataportal` welche CSS regeln.

Zum Beispiel sollten auf `/admin/config/cdm_dataportal/settings/layout/taxon` die hierarchy levels unter Distribution hierarchy style fälschlicherweise nicht mehr floaten.

Das sollte jetzt damit gelöst sein.
