

EDIT - feature request #6458

Syn. nov. for synonyms

03/02/2017 11:13 AM - Andreas Müller

Status:	New	Start date:	
Priority:	Priority13	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdm	Estimated time:	0:00 hour
Target version:	CDM UML 5.43		
Severity:	normal		
Description			
Syn. nov. is a synonym information that refers to the secundum reference of the synonym. Therefore we need either a boolean value "syn. nov." or a state enumeration. The later is more flexible for the future (and less work to implement for existing data). Do we need only 1 state, or multiple?
