

EDIT - bug #6476

Remove MediaRepresentation and MediaRepresentationPart from Referencing objects view

03/02/2017 04:22 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
Compare with annotations, etc...			
First check if this needs to be done in cdmlib or in TaxEditor.			
Btw. we need to check if annotations are shown e.g. from InlineReferences as they are only linked from there. (Also consider InlineReferences during automated delete of annotations)
