#### History

##### #1 - 05/11/2017 10:17 AM - Andreas Müller

- Priority changed from New to Highest

- Target version changed from Release 4.7 to Release 4.8

##### #2 - 07/11/2017 12:13 PM - Andreas Müller

- Status changed from New to Resolved

Probably this is solved by the new Person.initials. But we still need to update caches. But careful with Palmweb and maybe missing cache protection.

##### #3 - 05/14/2021 12:29 AM - Andreas Müller

- Tags set to formatting

##### #4 - 05/14/2021 07:57 PM - Andreas Müller

- Status changed from Resolved to Closed

This should be fixed due to new cache strategy which puts initials after family name in biblo teams

##### #5 - 05/14/2021 07:57 PM - Andreas Müller

- % Done changed from 0 to 100
