

## EDIT - bug #6511

feature request # 4719 (New): [MASTER] Implement IntextReference

### Handling of objects being referenced in a InTextReference during deleting

03/15/2017 12:21 PM - Katja Luther

<b>Status:</b> Rejected	<b>Start date:</b>
<b>Priority:</b> Highest	<b>Due date:</b>
<b>Assignee:</b> Katja Luther	<b>% Done:</b> 0%
<b>Category:</b> cdmlib	<b>Estimated time:</b> 0:00 hour
<b>Target version:</b> Release 4.7	<b>Found in Version:</b>
<b>Severity:</b> normal	
<b>Description</b>	
When deleting an object which is used as an intextReference target we have to skip deleting otherwise we get an Exception that the deleted object would be resaved by cascading.

### History

#### #1 - 03/15/2017 12:22 PM - Katja Luther

- Related to bug #6459: Implement deduplication for IntextReferences added

#### #2 - 03/15/2017 04:05 PM - Andreas Müller

- Parent task set to #4719

#### #3 - 03/15/2017 04:16 PM - Andreas Müller

- Target version changed from Unassigned CDM tickets to Release 4.7

As Nepenthes has intext references we should try to implement this soon.

#### #4 - 05/09/2017 02:49 PM - Katja Luther

- Status changed from New to Rejected

Reject the ticket because it works without special handling.

Tested whether the intext references are also deleted and no resaved by cascading exception.
