Katja:

Es gibt noch zwei Sachen, die ich im Hinblick auf den Workshop kritisch finde:

~~Wenn ich einen neuen Namen erzeugt habe und eine Referenz in den NameEditor eingebe, dann funktioniert zwar der Parser richtig, aber der Details View wird nicht aktualisiert, so dass es so aussieht als hätte es nicht funktioniert.~~

Wenn Synonyme nicht im Name Editor nicht editierbar sind, dann kann ich sie auch nicht auswählen, dann kann ich im Name Editor auch keine Änderungen machen, so dass ich das Problem nicht beheben kann und ich kann sie dann auch nicht löschen.

- Severity changed from normal to major

The Name Editor can still be opened multiple times for the same taxon. At least this is the case when trying opening via search result view or referencing objects view. It seems to be not the case when opening via taxon navigator.
In general opening strategy should be independent from where the opening was triggered. If this is not yet the case we should try to make it independent and use 1 single access point.

#16 - 10/25/2017 10:43 AM - Patrick Plitzner

This has now also been fixed

#17 - 10/25/2017 01:19 PM - Katja Luther

- Assignee changed from Katja Luther to Patrick Plitzner

when opening a taxon that has a synonym the synonym has the focus. But the accepted taxon should have the focus.

No it's more difficult: Opening a taxon in the name editor -> the synonym is highlighted but the selected item seems to be the accepted taxon (details and factual data are displayed) but when clicking on the tab to move it the synonym gets the focus (I did not click in the freetext field) and the details of the synonym are displayed. see attached images

#18 - 10/25/2017 01:28 PM - Katja Luther

- File synonymHasFocus.PNG added

- File synonymHighlighted.PNG added

#19 - 10/26/2017 09:05 AM - Patrick Plitzner

- % Done changed from 60 to 70

#20 - 10/26/2017 01:44 PM - Katja Luther

- Status changed from Resolved to Feedback

- Assignee changed from Katja Luther to Patrick Plitzner

the focus still moves to the synonym when moving the tab.

#21 - 10/27/2017 07:48 AM - Patrick Plitzner

- Status changed from Feedback to Resolved

- Assignee changed from Patrick Plitzner to Katja Luther

- % Done changed from 70 to 80

Fixed the initial selection.

I think all the issues mentioned in the comments are done. Please close if correct

#22 - 11/01/2017 01:49 PM - Katja Luther

- Status changed from Resolved to Feedback

- Assignee changed from Katja Luther to Patrick Plitzner

I don't know if this is an old issue: but setting a synonym in a heterotypic (to the accepted taxon) homotypic group as basionym changes the symbol of the synonym from homotypic to heterotypic.

#23 - 11/01/2017 01:50 PM - Katja Luther

the focus stuff works fine now.

#24 - 11/01/2017 02:40 PM - Katja Luther

Katja Luther wrote:

> I don't know if this is an old issue: but setting a synonym in a heterotypic (to the accepted taxon) homotypic group as basionym changes the symbol of the synonym from homotypic to heterotypic.

this is again an update problem because the basionym should be the first synonym in the list and then the icon is correct.
same problem when drag&drop a synoym in the homotypical group of an other synonym, the order should be recalculated.

#25 - 11/06/2017 05:00 PM - Patrick Plitzner

- Status changed from Feedback to Closed

- % Done changed from 80 to 100

Created a new ticket for the remaining issues -> #7058

#26 - 11/07/2017 10:40 AM - Andreas Müller

- Status changed from Closed to Feedback

Have to reopen as it is not possible anymore to add a misapplication to an accepted taxon. The according submenu in the "New" context menu is disabled.

Another less critical issue: context menu of accepted taxon shows "change to" which has 3 disabled submenus. In e3 the "change to" menu item was invisible, which is more appropriate.

Finally, in e3 we had a "save" menu item which is missing in e4 version (not so critical, as save is possible at other places, however, some users might be used to)

#27 - 11/07/2017 10:49 AM - Andreas Müller

- File picture804-1.png added

#28 - 11/07/2017 12:14 PM - Patrick Plitzner

- Status changed from Feedback to Resolved

- Assignee changed from Patrick Plitzner to Andreas Müller

Fixed misapplication handler and opened ticket for remaining issues. #7064

Please close after review

#29 - 11/07/2017 12:14 PM - Patrick Plitzner

- Copied to bug #7064: NameEditor remaining issues added

#30 - 11/07/2017 03:36 PM - Andreas Müller

Misapplication issue seems to be fixed. Keep ticket open for general review of name editor.

#31 - 11/07/2017 04:50 PM - Andreas Müller

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Patrick Plitzner

Name editor tabs do still show taxon titleCache but should show name titleCache

#32 - 11/08/2017 01:30 AM - Andreas Müller

Restoring name editors tabs after restart (maybe also reconnect?) does not work anymore, but did in 4.10. (see similar issue in navigator ticket #6909
)

#33 - 11/08/2017 07:53 AM - Andreas Müller

Move synonym (homot. group) to a new accepted taxon does not work correctly. The result is correct, but after the operation only the dirty flag is set. The homotypic group is still visible. It should be the other way round:

- the synonym group should be removed
- the dirty flag should NOT be set (because the operation is saved immediately and can't be reverted)
- additionally the new taxon should be opened (showing the synonym group being moved)

Partly this already didn't work in v4.10: here the synonym group WAS removed but the dirty flag was still set. Also the new accepted taxon was not opened.

#34 - 11/08/2017 09:43 AM - Andreas Müller

- Copied to feature request #7063: Improve the area selection wizard for distribution editor added

#35 - 11/08/2017 09:44 AM - Andreas Müller

- Copied to deleted (feature request #7063: Improve the area selection wizard for distribution editor)

#36 - 11/08/2017 09:47 AM - Patrick Plitzner

- Status changed from Feedback to Resolved

- Assignee changed from Patrick Plitzner to Andreas Müller

- % Done changed from 100 to 90

Handler was fixed.

Restoring was disabled on purpose (as described in #6909)

#37 - 11/08/2017 10:45 AM - Andreas Müller

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Patrick Plitzner

Patrick Plitzner wrote:

> Handler was fixed.

In the old taxon, the synonym group is still visible (after reopen it is disappeared so it is only a refresh issue) but shouldn't. All the rest works.

#38 - 11/08/2017 10:56 AM - Andreas Müller

- Copied from feature request #7071: Reenable restore functionality added

#39 - 12/18/2017 11:22 AM - Katja Luther

Andreas Müller wrote:

>
> In the old taxon, the synonym group is still visible (after reopen it is disappeared so it is only a refresh issue) but shouldn't. All the rest works.

I can't reproduce this. The old taxon is closed and the new one is opened.

#40 - 12/18/2017 11:43 AM - Katja Luther

- Status changed from Feedback to Resolved

- Assignee changed from Patrick Plitzner to Andreas Müller

#41 - 05/16/2018 02:31 PM - Patrick Plitzner

- Status changed from Resolved to Closed

- Assignee changed from Andreas Müller to Patrick Plitzner

- % Done changed from 90 to 100

The E4 migration has been done up to a sufficient state.
Remaining issues should be handled in separate tickets.
