Katja, can you review this first and then pass to me?

**#9 - 08/18/2017 10:40 AM - Katja Luther**

one open issues: the cache fields shouldn't be grayed if they are editable.

**#10 - 08/18/2017 10:40 AM - Katja Luther**

The Media details view does not show the full image anymore.

E.g. testserver/rem_conf_am -> Media Bulk editor -> search for A* -> select Arenaria biflora L. -> not the full hight of the image is shown (see attachement)

After resizing the window the full image is shown. When using advanced view a larger part of the image is shown but still not the full size.

**#15 - 09/14/2017 12:09 PM - Andreas Müller**

Except for the above I can't find any other issues (but could not test how it interacts with supplemental data view as the later still has bugs #6905)

**#16 - 09/14/2017 04:13 PM - Andreas Müller**

In Specimen Tree editor and Specimen bulk editor data is immediately persisted after typing. Closing the view without saving does not prevent from saving. When reopening the changes are still there.

Additionally the save button does not get enables in the specimen bulk editor when any changes happen.

If this is not related to the details view please feel free to open new ticket or add to according existing ticket.

**#17 - 09/15/2017 07:52 AM - Patrick Plitzner**

*- Copied to bug #6949: The Media details view does not show the full image added*
