

EDIT - feature request #6631

Implement basionym guessing in TaxEditor

05/10/2017 11:08 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets		
Severity:	normal		
Description			
<p>We may want to use the basionym guessing functionality (#6576) available in the Name Editor. It might be available via right click menu (at least as long as some homotypical groups do not have a basionym defined, but this is an advanced requirement).</p> <p>For this we may also need to adapt the algorithm a bit to apply only to a homotypical group or to 2 taxa/names.</p>
