<b>Description</b>			
<p>The field Media.mediaCreated is currently not shown in the dataportal but should. It should be added to the image gallery and the media page (the image gallery might be discussed or configurable, but on media page it is definitely required).</p> <p>Note: in future the media created will not be a DateTime anymore but a TimePeriod (<a href="#">#7074</a>)</p> <p>Examples can be found in flora of cyprus where almost all media have a media created set. Same for flora of Greece.</p> <p>Example in Flora of Greece: <a href="http://portal.cybertaxonomy.org/flora-greece/cdm_dataportal/taxon/1c7a0a82-bd99-44eb-91cf-77a36206d0ad">http://portal.cybertaxonomy.org/flora-greece/cdm_dataportal/taxon/1c7a0a82-bd99-44eb-91cf-77a36206d0ad</a> (image gallery) and <a href="http://portal.cybertaxonomy.org/flora-greece/cdm_dataportal/media/b2ab6c51-3dd8-4caa-8eab-9c6cc7e7698c">http://portal.cybertaxonomy.org/flora-greece/cdm_dataportal/media/b2ab6c51-3dd8-4caa-8eab-9c6cc7e7698c</a> (media page)</p>
