Description

... so it looks more like in bibliographic reference usage.

At the same time keep the old formatting as fulltitle so it can be used for person pages etc.

This is urgently needed for better formatting of references.

Open issue:

- update script for cache updating
- formatting
  - with comma? => no one complained so far about the comma (though also the version without comma exists in literature)
  - with empty space between initials? => no one complained so far about the current version without empty space
  - which place to put et al. => et al. is not wanted (see #7305, #9326, #9624)
