

EDIT - bug #6683

Use best quality media representation in image viewer on media page

06/01/2017 09:23 AM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 4.9	Found in Version:	
Severity:	blocker		
Description The image viewer in the media page always chooses only the first representation even if this is a thumbnail image. The representation with the best quality should be used instead. See for example: http://portal.cybertaxonomy.org/flora-greece/cdm_dataportal/media/fb1a93d9-8c90-4b35-a1ea-be0e176facac

Applied in changeset [cdm-dataportal|4fa6f9bae51a5c5983d9effd0b88a90dca13cc65](#).

#7 - 07/07/2017 09:15 AM - Andreas Kohlbecker

- Target version changed from Release 4.8 to Release 4.9

#8 - 07/21/2017 10:52 AM - Andreas Kohlbecker

- Assignee changed from Andreas Kohlbecker to Andreas Müller

I cant really do the review since the flora of greece portal still is using the full-size images as thumbnails.
[Andreas Müller](#): please review once the thumbnails are back

The problem is that the images can't be switched back as long as [#6684](#) is not fixed. Otherwise they may show up in thumbnail size in overlay.
