

EDIT - feature request #6692

Make name types changeable

06/05/2017 09:39 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 4.10		
Severity:	normal		
Description			
Taxon names do not use subclassing anymore but have a nameType now. So it should be possible to change the name type (nomenclatural code) in TaxEditor on the fly.

In future we may want to have not only code abbreviations but more human readable labels. Also we may want to order and even have a hierarchy expressed.
However, this may need more discussion. So for now we can close this ticket.
