

EDIT - bug #6728

Changing author data when editing a reference does neither update the reference titleCache nor the author label

06/14/2017 05:11 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	40%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 4.13	Found in Version:	
Severity:	normal		
Description			
How to reproduce:			
<ul style="list-style-type: none">• Create a taxon with NO secundum set• Add a secundum by creating a new generic reference with only title set• save• open the refernce again by using the edit button close to "Secundum"• Add an author (person) by creating a new person with protected title cache "A. Smith"• close Person edit dialog. (=> Reference author and titleCache show up correctly)• Edit person again by opening Person edit dialog from Reference edit dialog• Set titleCache to unprotected and add initials B. and surname Smith => Author in reference still shows "A. Smith", reference titleCache still shows "A. Smith". => INCORRECT• Reopen author and change initials from "B." to "C." => this time the author label updates correctly, but the reference titleCache is still not updated.			
So the author update sometimes works will the reference cache update never works.			
IMPORTANT: Generally whenever we open the edit dialog, after closing all caches and related labels in the underlying view or dialog should be updated/synchronized. Please check for other such cases!!

The above issue works fine. I haven't checked all other places (too many), but I think for now we can close this ticket.
