### Description

If the derivate view is selected but in the right hand corner like it is, when it is opened. Then the "active editor" is still the name editor and the createDescriptionOperation works with the editorInput of the activeEditor -> this means the description is created for the name not for the specimen.

## History

**#1 - 06/21/2017 02:31 PM - Katja Luther**

*- Related to bug #6747: Media and Facts view is inactive for specimen editor added*

**#2 - 06/21/2017 08:27 PM - Andreas Müller**

*- Severity changed from normal to critical*

**#3 - 06/21/2017 08:28 PM - Andreas Müller**

It seems like the linking is correct for the media view but not for the facts view

**#4 - 06/23/2017 10:27 AM - Katja Luther**

*- Status changed from New to Resolved*

*- Assignee changed from Katja Luther to Andreas Müller*

seems to work now with the changes for the other derivate view tickets.

**#5 - 06/23/2017 11:00 AM - Andreas Müller**

*- Related to feature request #6596: Migrate specimen editor added*

### #6 - 06/23/2017 12:56 PM - Andreas Müller

*- Related to deleted (feature request #6596: Migrate specimen editor)*

### #7 - 06/23/2017 12:56 PM - Andreas Müller

*- Parent task set to #6596*

### #8 - 07/07/2017 11:05 AM - Patrick Plitzner

*- % Done changed from 0 to 50*

Applied in changeset [taxeditor|5daadc6e2e64a5ef6c2684c64c0df8771c084d87](#).

### #9 - 07/07/2017 05:21 PM - Andreas Müller

*- Status changed from Resolved to Feedback*

*- Assignee changed from Andreas Müller to Patrick Plitzner*

It still does not seem to work if the focus is set to the same record as before.

What I did:

- Open Specimen Editor
- Set focus to a specimen (factual data appear in factual data view)
- Set focus to a taxon (factual data appear for the taxon)
- Set focus back to the specimen by clicking on it (even multiple times), => factual data and also details still show the taxon data

### #10 - 07/07/2017 05:26 PM - Patrick Plitzner

That is actually a different problem. There is just no SelectionChangedEvent thrown when re-setting focus to the specimen. If you click on another item and then on the specimen again the views are updated.

### #11 - 07/07/2017 05:37 PM - Andreas Müller

By the way, also the save button dirty state is irritated after a while if you jump back and force between taxa and specimen and add some data. After a while it indicates a dirty state but pressing the button does not change anything and it is really difficult to get it back to undirty state.
I hope this has the same reason. Otherwise we need a new ticket.

So we need to assure that if the view looses the focus in between if getting back to the view we need to throw a selection change event.

If this is another issue feel free to create a new ticket. However, the effect is very similar and it is also a critical issue as the user may not recognize that he is not editing the expected record.

**#13 - 07/10/2017 10:47 AM - Patrick Plitzner**

*- Status changed from Feedback to Resolved*

Applied in changeset taxeditor|3ac520886e2ca77781c575fd51f08b3a3f20cc1f.

**#14 - 07/10/2017 02:36 PM - Andreas Müller**

should I review?

**#15 - 07/10/2017 02:43 PM - Patrick Plitzner**

*- Assignee changed from Patrick Plitzner to Andreas Müller*

**#16 - 07/10/2017 04:07 PM - Patrick Plitzner**

*- Related to feature request #6795: Invoke selection change event when setting focus to specimen editor added*

**#17 - 07/10/2017 04:08 PM - Patrick Plitzner**

I added and fixed the issue of the focus selection: #6795

**#18 - 09/21/2017 06:51 PM - Andreas Müller**

*- Status changed from Resolved to Closed*

*- Assignee changed from Andreas Müller to Patrick Plitzner*

*- % Done changed from 50 to 100*

Looks like this is fully fixed now.
