

EDIT - feature request #6752

Add verbatimDate

06/23/2017 01:51 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	100%
Category:	cdm	Estimated time:	5:00 hours
Target version:	CDM UML 5.0		
Severity:	normal		
Description			
<p>We may need an additional field verbatimDate which is e.g. for references the date when the reference was published according to what is written on front page.</p> <p>A couple of questions exist:</p> <ul style="list-style-type: none">• do we need this field for all TimePeriods or only for usage in Reference => decision: references only• what format should it have? String, Date, DateTime, TimePeriod, PartialDate, ... => decision: String <p>If it does not become a field within TimePeriod it may become more difficult to parse and format such dates as you need to implement separate parsers and formatters for this special use case. But we could use a subclass VerbatimTimePeriod which has an extra field.</p> <p>If it becomes a String it is not possible to format differently according to the needs of the output (e.g. the new IPNI format [dt. Jan 2013; issued 28 Dec 2012] then is not possible to use in a special publication when at other places we only want to have something like "2013" 2012</p> <p>Other places where TimePeriod is currently used are: Classification.timeperiod, InstitutionalMembership.period, Person.lifespan, EvenBase.timeperiod (including subclasses Amplification, DerivationEvent, DeterminationEvent, GatheringEvent, MaterialOrMethodEvent [Cloning, PreservationMethod], SingleRead), DescriptionElementBase.timeperiod, NamedArea.validPeriod,</p> <p>See also #6627#note-10</p> <p>Open issues:</p> <ul style="list-style-type: none">• Parsing and Formatting (#7429)• TaxEditor implementation (#7421)• Vaadin implementation (#7425)
