

EDIT - feature request #6800

Allow all filters for DwCA export in TaxEditor

07/11/2017 11:03 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 4.13		
Severity:	normal		
Description			
The new DwCA export allows filtering classifications, subtrees, single taxon nodes and taxa.			
This should be reflected by the export assistant.			
Note: the given filter (TaxonNodeFilter) is intended to be used also by other exports. So it may make sense to create a generic component to set the filter.

- Related to feature request #6933: Add possibility to export only families or other part of the tree in CDM light and DwC-A export added

#7 - 09/14/2017 02:19 PM - Andreas Müller

In CDM light export we currently distinguish "Export selected subtree" and "Export complete classification". For DwC-A we need a third category: "Export all classification" (without selection dropdown) and/or if possible a fourth alternative which allows selecting multiple classifications (e.g. by a multi-select dropdown)

now all filters are available (taxon filter are also implemented with subtree filter)

#13 - 01/16/2018 04:34 PM - Andreas Müller

- File picture726-1.png added

Subtree filter and taxon filter still not seem to be available in nightly. See screenshot.

#16 - 01/16/2018 04:42 PM - Andreas Müller

I created a new ticket for new available filter parameters [#7193](#)

#17 - 02/16/2018 12:09 PM - Katja Luther

- Assignee changed from Katja Luther to Andreas Müller

the subtree filter should be available now, please review. To filter on taxa, you have to click on taxonnodes without children.
if it should also be possible to export only the parents of a subtree, we need to add a checkbox in the wizard that only the selected taxonnodes without their children should be exported.

#18 - 05/18/2018 09:38 AM - Andreas Müller

if it should also be possible to export only the parents of a subtree, we need to add a checkbox in the wizard that only the selected taxonnodes without their children should be exported.

Yes I think we should have such a checkbox. Label "Include children" with default to true.

#19 - 03/16/2022 02:22 PM - Katja Luther

- Status changed from *Feedback* to *Closed*

The last issue having a checkbox "include children" is still an open issue, therefore I create a new ticket and close this one.

#20 - 03/16/2022 02:22 PM - Katja Luther

- % Done changed from 70 to 100

#21 - 03/16/2022 02:24 PM - Katja Luther

- Related to bug #9980: Implement a checkbox to distinguish between export the whole subtree or only the selected node added

#22 - 03/16/2022 04:55 PM - Andreas Müller

- Related to deleted (bug #9980: Implement a checkbox to distinguish between export the whole subtree or only the selected node)

#23 - 03/16/2022 04:55 PM - Andreas Müller

- Copied to bug #9980: Implement a checkbox to distinguish between export the whole subtree or only the selected node added
