

EDIT - bug #6838

Implement i18n for FeatureTreeEditor

07/21/2017 01:33 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Patrick Plitzner	% Done:	50%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.0	Found in Version:	
Severity:	normal		
Description			
If another language than English is chosen for term representations in TaxEditor preferences, the feature tree editor still shows the English translation.			
This works correctly in term editor and at other places, so you may copy from there.			
An example is salvador where all features from the salvador feature vocabulary are translated to Spanish. If you switch the TaxEditor to "spanish; castillian" the features should show up in Spanish.
