hmm, should we better fix the setName() method instead the NewInstance method?

#5 - 07/24/2017 09:28 AM - Andreas Kohlbecker

agreed and fixed

#6 - 09/14/2017 11:11 AM - Andreas Müller

- Assignee changed from Andreas Müller to Andreas Kohlbecker

Looks like there were still some bugs in setName().

- if name was null there was still an NPE in the last line
- existing registration was removed from name.getRegistrations but should be removed from this.name.getRegistrations()
- maybe some more

I adapted the method and wrote test to proof correct behavior.

Please review.
