Target version:	
Severity: normal	
Description	
<p>We do have title and titleCache in Media. We need to discuss how these 2 work together when editing, importing, searching and publishing media.</p> <p>Currently it is not clearly defined, if the titleCache should be filled directly or if information should go into title. Title is a multi-language field. How to handle multi-language support in publication and editing?</p> <p>This might also be an issue for other identifiable entities like Classification, ...</p>
