Seems to work well. The only issue I found is that marking multiple records in the view and then trying to delete them does not work. None of the records seems to be deleted. But this might have been like this before. As this view is not used very often we could just disable the possibility to mark multiple lines (or is this difficult?).

Another minor issue is that the right click menu contains "Create Datamodel" on top while "Update model" is on the bottom. I think these belong together and should be in one group. I suggest to move them both to the bottom.

Final issue: Main menu entry in "Open View" has been moved. It should be in the bottom group together with "Session".

The last issue should be fixed, the other issues are probably new. Feel free to fix them or create a new ticket.

Final issue: Main menu entry in "Open View" has been moved. It should be in the bottom group together with "Session".

This is still an open issue (see also my separate mail). Once it is fixed this can be closed. The other 2 issues I mentioned work fine.
