#### #3 - 09/20/2017 11:37 PM - Andreas Müller

- Status changed from Resolved to Feedback
- Assignee changed from Andreas Müller to Patrick Plitzner

If one adds a new term and then the label of this term is changed, the new label is not reflected in the label of the supplemental data view (it is still showing "Feature: Untitled".  
After reconnect the label is correct.

#### #4 - 09/20/2017 11:40 PM - Andreas Müller

A reconnect does not close the term editor. In e3 it still does.

Please also check for other editors. I only checked for term editor.

**#5 - 09/20/2017 11:40 PM - Andreas Müller**

All other features seem to work.

**#6 - 09/22/2017 10:53 AM - Patrick Plitzner**

- *Status changed from Feedback to Resolved*
- *Assignee changed from Patrick Plitzner to Andreas Müller*
- *% Done changed from 50 to 80*

**#7 - 09/22/2017 12:33 PM - Andreas Müller**

- *Status changed from Resolved to Feedback*
- *Assignee changed from Andreas Müller to Patrick Plitzner*

Now, after reconnect the details view and supplemental data is emptied but when clicking on the empty details view the content of the supplemental details reappears.

If this can easier be handled after full e4 migration we can live with it for now and close the ticket. But if it is easy to fix we could try to fix it.

Also the missing refresh of the supplemental data view we decided only to handle in next version after full e4 migration therefore it is not yet fixed. But we should open a new ticket to not forget these issues.
