

Edit - bug #6934

Exports throw RemoteException

09/08/2017 10:46 AM - Andreas Müller

Status:	New	Start date:	09/08/2017
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0.00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		

Description

When running export functionality on larger databases (whole database) from within the TaxEditor one often gets RemoteExceptions. A reason for this could be that httpinvoker does not support streaming and large results result in time-outs or similar issues.

Maybe [#6791](#) is a solution for this.

WGB:

im Nachgang hierzu habe ich mal die anderen Exportfunktionen ausprobiert.

CSV_Name hörte sich viel versprechend an – lief auch schnell durch, aber ohne, dass die Ergebnisdatei bei mir gespeichert wurde.
CSV-Print – dauert - Ende mit Fehler (sah genauso aus, aber sicherheitshalber noch mal unten)
DwC-A (nur Taxa, Synonyme, Missapplied, mit Header) – dauert – dauert sehr – noch länger – und Fehler.
JAXB (nur Synonyms, Taxa, Taxon Names [??]) – dauert auch „noch länger“ – und Fehler.
