<b>Severity:</b>	normal		
<b>Description</b>			
<p>If you enter a value into the name LSID field and then remove it again you get an red error "URI wird nicht gespeichert! null". This is not correct. A non existing LSID should not lead to an error message (but please guarantee that the LSID is fully removed from the name).</p>			
<p>Could you also change the label from "Lsid" to "LSID"?</p>
