

EDIT - bug #6949

The Media details view does not show the full image

09/15/2017 07:52 AM - Patrick Plitzner

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Patrick Plitzner	% Done:	50%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 4.10	Found in Version:	
Severity:	normal		
Description			
The Media details view does not show the full image anymore.			
E.g. testserver/rem_conf_am -> Media Bulk editor -> search for A* -> select Arenaria biflora L. -> not the full hight of the image is shown (see attachment)			
After resizing the window the full image is shown. When using advanced view a larger part of the image is shown but still not the full size.

- Assignee changed from Patrick Plitzner to Andreas Müller

- Target version changed from Unassigned CDM tickets to Release 4.10

#4 - 09/20/2017 07:31 PM - Andreas Müller

Seems to work and can be closed.

There is an issue now which I don't know if it is related. If entering an URL which does not link to any file the "No file found" warning is only shown in advanced view. Is this wanted. Also I would expect that it is shown below the according URL of the MediaRepresentationPart but it is shown on bottom of the Media section.

If this is a bug and not related please feel free to create a new ticket.
