

EDIT - feature request #6957

Implement cache strategy for viral names

09/19/2017 12:50 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Release 4.10		
Severity:	normal		
Description			
Viral names are not yet correctly handled in the name cache strategy and throw an NPE when calling getTitleCache

- Status changed from New to Resolved

- Assignee changed from Andreas Müller to Katja Luther

- Target version changed from Unassigned CDM tickets to Release 4.10

A first version is ready. We may think about handling viral names with rank higher then species differently in future, e.g. by using the uninomial field as they should be uninomials according to the code.
Also we may think about adding a new field "viral species name" instead of using the titlecache field for the name. But this is not part of the current ticket.

#7 - 09/20/2017 06:00 PM - Andreas Müller

- Tracker changed from bug to feature request

#8 - 09/20/2017 06:04 PM - Andreas Müller

- Related to task #6630: Unify TaxonName cache strategies added

#9 - 09/20/2017 06:36 PM - Andreas Müller

- *Related to feature request #6963: Implement cache strategy for cultivar plant names (done), bacterial names, fungi, etc. added*

#10 - 09/22/2017 11:15 AM - Katja Luther

- *Status changed from Resolved to Closed*

- *Assignee changed from Katja Luther to Andreas Müller*

as a first version it looks fine.
