- File picture395-1.png added

No graph is shown on my machine. I tested on testserver/rem_conf_am => Testklass - Sabularia Small.

The view shows up but no graph is shown inside.

#4 - 10/11/2017 02:48 PM - Andreas Müller

The view shows up but no graph is shown inside.

Has this worked before? It seems like I did not change anything about the code that draws the graph.

#6 - 11/06/2017 06:22 PM - Andreas Müller

- Related to bug #7060: Concept graph view works only for relationships in one direction added

#7 - 11/06/2017 06:25 PM - Andreas Müller

- Assignee changed from Andreas Müller to Patrick Plitzner

Looks like there was a bug before already. It works only under certain conditions depending on the concept relationship direction (see [#7060](#)).

#8 - 11/06/2017 06:28 PM - Andreas Müller

- % Done changed from 50 to 100

For both, the concept relationship view as well as the concept graph it would be nice to have a label showing which taxon is shown in the view. Similar to e.g. supplemental data view or referencing objects view.

If this is easy to implement we could do it here. Otherwise create a new ticket and close this one. It is solved.

#9 - 11/06/2017 06:41 PM - Andreas Müller

The graph originally had a label in the tab label as it looks like. However, it was kind of broken already. See attachment.

#10 - 11/07/2017 11:22 AM - Patrick Plitzner

- Status changed from Feedback to Closed

Added new ticket -> [#7061](#)

#11 - 11/07/2017 11:22 AM - Patrick Plitzner

- Copied to bug #7061: Show concept information in label for concept view and graph view added
