

EDIT - bug #7035

Vaadin views keeping connection open as long as the view has not exited

10/25/2017 04:30 PM - Andreas Kohlbecker

Status:	Rejected	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-vaadin	Estimated time:	0:00 hour
Target version:		Found in Version:	
Severity:	critical		
Description			
For Views using the AbstractPresenter a conversation is started when the view is initialized and is closed when the view exits. These caused open connections to accumulate. For each opened view a connection is kept open until the user explicitly exits the view. If the browser window showing the view is closed the view if not being notified and will not exit the used connection is thus kept open and will never close. The connection pool which is limited to max 15 connections is running out of connections quite soon due to this problem.

ref #7035 reducing heartbeat interval to 30s to cleanup open connections

Revision 43430a5c - 11/08/2017 12:00 PM - Andreas Kohlbecker

Revert "ref #7035 reducing heartbeat interval to 30s to cleanup open connections" since we no longer need forced cleanup of open view, see issue #7035 for details

This reverts commit 475ec4ee62660184e6c875d3209bcaff8184b276.

History

#1 - 10/25/2017 04:30 PM - Andreas Kohlbecker

- Status changed from New to In Progress

#2 - 11/08/2017 11:24 AM - Andreas Müller

Is this still an open issue? If yes, move to 4.12

#3 - 11/08/2017 12:05 PM - Andreas Kohlbecker

- Status changed from In Progress to Rejected

- Target version deleted (Release 4.11)

This issue is no longer relevant since we decided for a completely different approach, see [#7046](#)
