

EDIT - bug #7049

DB preferences should allow triple state to allow null values for checkboxes

11/02/2017 02:55 PM - Andreas Müller

Status:	Worksforme	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:		Found in Version:	
Severity:	normal		
Description			
Currently, if one changes a value e.g. a value on the specimen or observation page all the values are saved and set to either true or false, even if one only wants to define the behavior for 1 field. A 3 state for the checkbox, if selected, should delete the according preference from the database.
