Description			
Copied from #6595 :			
<ul style="list-style-type: none">Another less critical issue: context menu of accepted taxon shows "change to" which has 3 disabled submenus. In e3 the "change to" menu item was invisible, which is more appropriate.Right click menu of accepted taxon and maybe also synonyms sometimes disappears (#6954)Finally, in e3 we had a "save" menu item which is missing in e4 version (not so critical, as save is possible at other places, however, some users might be used to) -> copied to #7670after drag & drop of a synonym the old homotypical group is not correctly updated, see attached file => copied to #7671reenable restore functionality (#7071)
