EDIT - feature request #7066

media view with preview should have different row heights for different image sizes

11/07/2017 12:26 PM - Katja Luther

Status:	New		**Start date:**	
Priority:	Priority14		**Due date:**	
Assignee:	Katja Luther		**% Done:**	0%
Category:	taxeditor		**Estimated time:**	0:00 hour
Target version:	Unassigned CDM tickets			
Severity:	normal			

Description

the standard treeviewer is not able to create different heights of the rows, in one tree, therefore we should use nebula grid to provide this possibility (or find another way)

As a preliminary step we could resize all preview images to a square. This reduces the height a bit and generally looks nicer. It should be enough to decide which media to open.
