

## EDIT - feature request #7070

### Registration workingset support for sections

11/07/2017 04:31 PM - Andreas Kohlbecker

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	New	<b>Due date:</b>	
<b>Assignee:</b>	Andreas Kohlbecker	<b>% Done:</b>	100%
<b>Category:</b>	cdm-vaadin	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Release 4.13		
<b>Severity:</b>	normal		
<b>Description</b>			
<p>The following diagram illustrates different situations of in-references regarding nomenclatural acts. The <i>Article</i> which is an in-reference of the Journal is the base for the <i>registration workingset</i>. The nomenclatural act for name 1 + Holotype has the Article as nomenclatural reference, but nomenclatural references can also be placed into sections which have the Article as in-reference. It is especially necessary if the authorship for the name differs from the Article.</p>			
<pre>Journal   Artikel     -&gt; name 1     -&gt; Holotype   Section (nomRef) -&gt; name 2                     -&gt; Holotype   Section (nomRef) -&gt; name 3                     -&gt; Holotype   Section (nomRef) -&gt; Lectotype (for eg. Basionym)</pre>			
<p>Consequently the following change need to be applied (see subtasks):</p> <ul style="list-style-type: none"><li>• RegistrationWorkingSet class must use the in-reference as base citation in case a <i>Section</i> is used as nomenclatural reference.</li><li>• The TaxonNameEditor needs to offer the option to add a section as nomenclatural reference which has the base citation of the registration workingset as in-reference</li></ul>			
<p>Examples:</p> <ul style="list-style-type: none"><li>• <a href="#">Brachysira altepetlensis D.Mora, R.Jahn &amp; N.Abarca, Phytokeys 88: 45. fig. 118–132. 2017</a></li></ul>			
<b>Subtasks:</b>			
feature request # 7169: RegistrationWorkingSet class must use the in-reference as base ...			<b>Closed</b>
feature request # 7171: TaxonNameEditor: mode which only allows adding nomenclatory ref...			<b>Closed</b>
feature request # 7172: creating Sections must be disallowd in StartRegistrationViewBean			<b>Closed</b>
feature request # 7173: RegistrationDao supports sections			<b>Closed</b>
