Target version:	Release 4.13	Found in Version:	Release 4.13
Severity:	normal		

Description

On adding Members to a PermissionGroup I entered a '?' as wildcard character in the filter textfield of the SelectionDialog and I got an exception:

The screenshot shows the EDIT application interface. In the background, there is a 'Groups' dialog with a search field containing '*' and a 'Details' panel for a 'Group Curator' with no members. In the foreground, an 'Unexpected error' dialog is displayed. The error message reads: 'This is an unexpected error. Please contact EDIT Support (EditSupport@bgbm.org) with the error trace below (click on the 'Details' button). java.util.regex.PatternSyntaxException: Dangling meta character '?' near index 0'. Below the error message, the text '? ^' is shown. At the bottom of the error dialog, there are buttons for 'Copy Error', '<< Details', and 'OK'. A text area at the bottom of the error dialog contains the following information: 'Dangling meta character '?' near index 0', '? ^', 'login : admin', 'editor version : 4.13.0.201712071146', and 'server : localhost (localhost-dev)'.

```
login : admin
editor version : 4.13.0.201712071146
server : localhost (localhost-dev)
schema version : 4.7.0.0.201710040000
os : Linux 4.10.0-40-generic amd64
```
