

EDIT - feature request #7140

Separate character's/feature's recommendedXXX data by usage for specimen and taxa

12/18/2017 02:25 PM - Patrick Plitzner

Status:	New	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdm	Estimated time:	0:00 hour
Target version:	CDM UML 5.43		
Severity:	normal		
Description			
We may want separate characters/features in terms of recommendedXXX vocabularies on specimen and taxon level as the type of data observed/available might be different and also aggregation algorithms may need different input/output. For example, for specimens we only allow min and max values but on taxon level we also want "mean", "upper/lower boundary (95% interval)". In the current CDM these recommended terms are the same for specimens and taxa
