EDIT - feature request #7163

Restructure preferences

01/11/2018 11:33 AM - Katja Luther

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**

Target version:	Release 5.5			
Severity:	normal			

Description

The preferences need to be restructured. This is a ticket to collect all known issues:

1. The preference should not be on "general" level. We need a subarea for "search dialog" issues.
   But we may decide these things when reordering preferences. So we can still close this ticket.

2. Some further minor issues in preferences: with using a checkbox it is unclear what the alternatives are (rank and name is one, but what is the other alternative?). We should better use a dropdown for chooseing the sort strategy. Maybe in future we will even have more strategies, so this will also help. If this is complicated the absolute minimum should be to have a tooltip that says what the alternative is or to integrate the alternative in the label (... "name and rank (checked), name only (unchecked)"

- Target version changed from Release 5.4 to Release 5.5

#7 - 01/25/2019 12:18 PM - Andreas Müller

- Status changed from New to In Progress

Some minor improvements:

~~ExperimFeatures Matching: Taxonname Matching und Team or Person Matching should be on the level like Referenz Matching~~

External Services: Image Maximum Width/Heigth is not really belonging to external services but to Media View I think.

~~German word "Such Dialog": please use 1 word (multiple occurrences)~~

~~UI Media: Klar differenzieren zwischen Media View und Media Details View. Möglichst mit 2 Überschriften (erstmal noch auf selber Seite) um auch visuell klar zu differenzieren.~~
~~Außerdem Label kürzen: Zeige erweiterten Media View im Details View => Zeige erweiterten Media Details View~~

~~Namedetails => Name details view~~

~~Konservierungsmethode => ... methoden~~

~~Labels immer ohne Punkt am Ende, z.B. bei Debug Einstellungen~~

~~Bulk Editor: Zeige Field Units i*m Specimen* Listeneditor an~~

~~Faktendaten: "Zeige Vokabular ID im Label von Termen" in einen Untermenüpunkt "Termeditor" verschieben~~

~~Gebiete => Gebietstypen~~

~~Merkmal => Merkmale~~

~~Standard Merkmalsbaum => direkt unter Faktendaten, also einen Level höher~~

~~Verfügbare Sprachen => einen Level höher (mittelfristig trennen zwischen Sprachen für Common Names => Faktendaten, Sprachen für Representationen => hier, Sprachen für andere Fälle => hier)~~

~~Taxon Suche: "In Taxon Such Dialogen sortiere nach Rang und Namen" => "In Taxon Suchdialogen nach Rang und Namen sortieren"~~

~~Suche -> Such Dialoge => Auswahldialoge~~

~~auch hier: Zeigt Object ID ... => Objekt~~
~~Setze die Suche nach Identifiern als Default => "Indentifier standardmäßig in Suche berücksichtigen" (oder aufnehmen/integrieren)~~

~~Typus: Füge allen ... => Komma entfernen~~

#8 - 01/25/2019 12:18 PM - Andreas Müller

- Priority changed from New to Highest

- % Done changed from 0 to 30

Should we set this to resolved afterwards and create a new ticket with remaining issues?

#9 - 01/25/2019 12:22 PM - Katja Luther

- Related to bug #8020: remaining issues from restructure preferences added

#10 - 01/25/2019 12:22 PM - Katja Luther

- Status changed from In Progress to Resolved

this is resolved, follow up ticket is: [#8020](#8020)

#11 - 01/27/2019 09:45 AM - Andreas Müller

most of the above are only label issues. Do we really need a follow up ticket for them?

#12 - 01/29/2019 09:29 AM - Katja Luther

But this preference is only used for creating the openURL reference not for other media?

OK, I didn't know that it is only for BHL (and that there is an image shown). But than we need indentation or some other kind of grouping (box, group title, ...) to make clear that these are all Mobot/BHL service related preferences (or we have subpages for each services, but currenlty this is not yet necessary I think). Also the label could be changed to "Reference image maximum width / height" and the textbox could be much smaller.

Also translation is missing.

#15 - 01/31/2019 05:11 PM - Katja Luther

> Also translation is missing.

I thought this is difficult to translate because everyone uses the english terms ;-)

#16 - 01/31/2019 06:19 PM - Andreas Müller

Für maximale Bildbreite/-höhe. Das kann man übersetzen finde ich. Vielleicht nicht die Services und Access Points.

#17 - 01/31/2019 06:25 PM - Andreas Müller

With the new implementation Mobot Open URL Service is and BHL images params are still not grouped together. BHL Reference Image is on the same level as Mobot Open URL Service so first interpretation is tat it does not belong together.
As mentioned above we need identation (for the image parameters) or any other grouping which clearly puts together all 3 Mobot Open URL params.

Additional minor: Decide generally if we want have ":" at end of labels. "EDIT Map Service:" has it, the others don't. Is there a general rule? Also "Access Point(:)" is inconsistent.

#18 - 01/31/2019 09:46 PM - Katja Luther

- Status changed from Feedback to Resolved

- Assignee changed from Katja Luther to Andreas Müller

mobot preferences are grouped together now and removed all ":"

#19 - 02/04/2019 11:09 AM - Andreas Müller

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

Ein paar weitere Labelfälle (minor)

Taxon Suche => Taxonsuche

Unter Namen könnte "Name Details View" zu "Details View" verkürzt werden.

Bei der Termauswahl sollte immer das gleiche Label verwendet werden, z.B. "Auswahl der xxx". Derzeit steht da mal "Konfiguration der xxx" oder "Wählen Sie xxx". "Konfiguration" finde ich grundsätzlich nicht gut. "Auswahl der xxx" und "Wählen Sie " finde ich beides ok, es sollte aber einheitlich sein.
Außerdem stand "anzeigen" immer "zur Verfügung stehen" verwenden. Es handelt sich ja immer um Dropdowns, bei denen ausgewählt werden soll, weniger um Anzeigen. Entsprechen im Englischen "Choose available (extension types)", würde ich also kurz halten.
Im Englischen gibt es auch noch ein paar alte Konstrutkionen, z.B. bei Ranks die "property sheets". Die gibts schon lange nicht mehr.

Debug Einstellungen => Debugging (de + en)

General Database Preferences => General (en)! Wichtig, weil inhaltlich falsch, es geht ja um lokale Einstellungen

Bulk Editor: Fehlende Englische Übersetzung von "Zeige Field Units in Listeneditor an"

#20 - 02/04/2019 11:10 AM - Andreas Müller

- % Done changed from 30 to 80

After changing the above label issues we can close the ticket. I opened a new ticket with new issues #8058.

#21 - 02/04/2019 11:57 AM - Katja Luther

I adapted all mentioned label issues and close this ticket.
