Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.0		
Severity:	normal		
Description Pro parte MANs have been implemented in cdmlib (#7158). Now we also need them in TaxEditor. We need: Maybe the easiest solution is to simply have a dropdown field in Details View to choose the relationship type from. Either "misapplied name" or "pro parte misapplied name". Later we will also add "partial misapplied name" In the Nameeditor we will need to add p.p. to the end (after sensu reference). Maybe we could also change the icon, but not necessarily needed.
