EDIT - feature request #7232

send events from view to presenter direcly

02/01/2018 03:04 PM - Andreas Kohlbecker

Target version:	Unassigned CDM tickets		
Severity:	normal		

Description

events from view which are dedicated to the according presenter are sent via the viewEventBus.
This a bad idea when working with popup editors. since the event can in principle be dispatched to all presenters that exist in this view context.

Solutions:

A. Presenters register at the view directly as listener for specific events
B. use a local unscoped event bus that is only connecting view an presenter. Can we use someting from Vaadin4Spring Event Bus?
