

EDIT - bug #7245

validation of ToOneRelatedEntityCombobox not working

02/06/2018 09:00 AM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-vaadin	Estimated time:	0:00 hour
Target version:	Release 5.5	Found in Version:	
Severity:	normal		
Description			
ToOneRelatedEntityCombobox set to required are not validated when the editor is comitted. validation is only triggered when LazyComboBox.setValue() is called, this however happens not when the selection is initially empty. We need to be able to validate empty selections: Nomenclatural references are required in the TaxonName editor in the phycobank application

This issue becomes more important now that blocking registrations are created. Names with missing nom. references cause broken registrations.
