

EDIT - bug #7259

[DISCUSS] After swap accepted <-> synonym move taxon to correct genus

02/13/2018 01:36 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
After swapping often a taxon needs to be moved to a new parent (e.g. because the new accepted species name belongs to another genus). In case the expected new parent exists in the tree and the movement is unambiguous this could be done automatically. However, maybe it is not wanted to do this automatically but rather a dialogue is wanted asking if the taxon should be moved. Including a warning that the current accepted name does not match the parent anymore.

WGB: richtig automatisch fände ich gar nicht gut, aber wenn einem der Parent schon rausgesucht und vorgeschlagen wird, wäre toll.
