

EDIT - feature request #7297

Move Misapplied name to another accepted Taxon

02/27/2018 09:54 AM - Katja Luther

Status:	New	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	0%

Target version:	Unassigned CDM tickets		
Severity:	normal		
Description			
For misapplied name it should be possible to move them from one Taxon to another analogue to "move synonym to another taxon".			

History

#1 - 03/02/2018 11:08 AM - Andreas Müller

Different to synonyms MAN can be reused and are related via concept relationships. So this task is bit more complicated.

1. We need to decide if also the concept relationship should be moved or only the MAN. Is this to be decided by the user (configurable) or is a fixed algorithm enough.
2. We may want to offer "move" and "clone" (maybe not really necessary)
