Description

deleting of a specimen which is used in type specimen works as aspected, but when the taxon is opened in name editor, the name editor/details view is not refreshed and the type designation is still shown. clicking on the button for opening the details of the specimen throws an NPE.

- Target version changed from Unassigned CDM tickets to Release 5.0

The refreshing of the name editor was the fix of #6668
So this ticket should be obsolete.
Katja, can you please check? I also checked after your changes to the updateEditor() method and it still worked.
