<b>Description</b>			
mail von Sabine: Wenn ich einen Typus ergänzen möchte (Type designations <input type="checkbox"/> New name), muss ich zuerst den Rang auswählen. Wenn ich auf das Dreieck gehe und dann ein s tippe, um zu species im drop down menue zu kommen, wird automatisch direkt „Section bot.“ ausgewählt (der erste Rang beim Buchstaben s) statt in der Liste zu s zu springen. Deshalb muss man dann erneut auf den Pfeil klicken, um dann aus der Liste species auswählen zu können.  it is the same for the rank selection combo box in name details view

Can you please check if this is still an open issue? I guess it is fixed with the possibility to filter combo boxes.

If so, please close as duplicate and relate to the according ticket that fixed it (if not too time consuming to find it).
