

EDIT - feature request #7335

Allow editing of pro parte and partial synonyms in the same way as misapplied names in the NameEditor

03/28/2018 02:23 PM - Andreas Müller

| Target version: | Release 5.0 | | |
| Severity: | major | | |
| Description With #7334 pro parte and partial synonyms will be editable only as concept relationships. Therefore they must be handled in the name editor similar as misapplied names and pro parte misapplied names. We need something in menu as "create pro parte synonym", a suitable symbol and correct formatting. | | | |

In the second line in the name editor the syn. sec. is shown, not the sec., the later is more important and should definitely be shown

Sorry, this was not correct. The later is not necessarily more important. Usually we only have the syn. sec. so we should leave it as it is or add the pure sec. information if available.

#9 - 06/04/2018 03:18 PM - Andreas Müller

In details view please switch syn. sec. and sec., first comes sec. then syn. sec., be careful to also set the two "details" correctly.

See also my mail from May 15th:

2) Sensu/sec und Detail dazu direkt unter appendedPhrase, wie bei normalen akzeptierten Taxa

#10 - 09/12/2018 01:07 PM - Katja Luther

- Status changed from Feedback to Closed

This is fixed.
