

Edit - bug #7392

Remove Cascade from relations

04/30/2018 02:06 PM - Andreas Müller

Status:	Closed	Start date:	04/30/2018
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	0%
Category:	cdmlib	Estimated time:	0.00 hour
Target version:	Release 5.0	Found in Version:	
Severity:	normal		
Description			
Classes inheriting from RelationshipBase such as NameRelationship, Hybridrelationship and TaxonRelationship do cascade from the related object to the other related object. This may reduce performance during save and also creates problems with permissions (#7390).			
Therefore we should remove the cascade from the relationship to the related object.			
This requires, that unsaved objects are now manually saved.
