

EDIT - bug #7395

Selection of nomenclatural code does not work in new taxon dialog

05/02/2018 10:47 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	50%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.0	Found in Version:	
Severity:	major		
Description			
The "New Taxon" dialog (when opened from search taxon selection dialog, e.g. when selecting a new taxon for a misapplied name or selecting a taxon for a concept relationship) has problems with filling the nomenclatural code field. "NonViral" is prefilled - and when trying to select another code the selection always jumps back to "NonViral".

fix #7395: add check for Nonviral nomenclatural code in checkForDeletableParts

History

#1 - 05/02/2018 10:49 AM - Andreas Müller

- Target version changed from Unassigned CDM tickets to Release 5.0
- Severity changed from normal to major

I just see that we have the same problem in details view. Once a name is defined as "Non Viral" it can't be changed anymore. So this ticket becomes a bit more critical.

#2 - 05/02/2018 01:53 PM - Katja Luther

- Status changed from New to Resolved
- % Done changed from 0 to 50

Applied in changeset [taxeditor|f1160ece1943f7119ecc23f2f4ebd3ec75bd0f6f](#).
